Subscription price and fulfillment period are subject to publishers acceptance and terms & Conditions. In case of increase in price we will send our supplementary invoice for immediate payment.

You will continue to get the copies regularly on time as and when published. Please remember that we are responsible for the entire paid subscription period. Kindly check with us in case of any hiccup in service/misleading issue or delay. Our Complaint if any should reach the publishers between 30 to 45 days from the date of issue. Delayed complaint will not cause replacement of missing copies as all publishers having varying claim policies including cancellation and refund. For any clarification or additional information regarding subscriptions, please check with us as we are at your service.

Meanwhile, it is our pleasure to send herewith our additional list of journals and Magazines on various subjects viz: Science and Technology. Perhaps this may help you to subscribe more titles for your library in future.

Thank you.

Abstract—The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and heart rate reserve (HRR) of sedentary middle-aged men. The subjects were 15 men, 40 to 50 years of age, who had been sedentary for at least 1 year. They were randomly assigned to a 12-week training program or a control group. The training program consisted of three sessions per week of aerobic exercise at 70% of the maximum HR. The control group was instructed to maintain their current level of activity. The HR and HRR were measured at rest and during a submaximal exercise test at baseline and at the end of the 12-week period. The results showed that the training program significantly increased the HR and HRR of the subjects. The HR increased from 72 to 78 beats per minute, and the HRR increased from 28 to 34 beats per minute. The control group showed no significant change in HR or HRR. The results suggest that a 12-week training program can improve the cardiovascular fitness of sedentary middle-aged men.
